Subject: good job:

As a young technology guru, I have seen the possibilities of how "high tech" will take us into the future and help to stabilize our economy. I very much agree with your decision in the Microsoft Corporation settlement. I am happy to see that the Bush Administration is not against Big Business, but instead, putting trust back in to business. Many may disagree with the effectiveness of the settlement but I truly believe this is in the best interests of our economy. Thanks for all of the hard work and especially the great job of the administration in defending freedom and democracy during these trying times. You all are to be commended!

Thanks again,
Kyle J. Winkler
